Product / Service: Express Delivery — order ORD-77821

Complaint Description

This is the third time I am writing about order ORD-77821. It was promised for delivery on 6 March under your Express guarantee. It is now 18 March and the tracking page has said 'out for dispatch' for eleven days. Nobody from your side has called me back despite two previous tickets. This is completely unacceptable and I want this escalated to a manager immediately.

Issue Details

The consignment appears to be stuck at the regional sorting hub. The courier partner has not provided a scan update since 7 March. The customer has already been charged the Express delivery premium.

Resolution Provided

(none recorded)

Escalation

Customer has explicitly requested escalation to a supervisor and has mentioned raising the matter with the consumer forum if not resolved this week.
